Who We Are

Winners.

11-Time Regional Champions
4-Time National T10 Finishes

Pioneers.

Carbon-Negative Mix
Machine Learning in Hull Design

Community.

40+ Years of Legacy
300+ Alumni Worldwide

What We Do

As NYU's oldest and most decorated competitive engineering team, we design and construct a canoe made of concrete and compete at regional and national competitions along with thousands of other students from around the world.

Our team is a **community** of a diverse students from different areas of interest playing a part in our various sub-teams, including hull design, structural analysis, mix design, construction, aesthetics, marketing, and paddling. Each year, we **pioneer** industry-leading innovations in construction materials and methods and demonstrate our innovations by competing at the American Society of Civil Engineers (ASCE) Concrete Canoe Competition.

Thank you for considering an investment in our students' educational experience. We look forward to collaborating and representing your business in the future.

Meet the Team

Alex Huang

Chief Engineer
Long Island, NY

Dwayne Ong

Principal Hull Engineer
Cebu, Philippines

Marko Ilievski

Principal Structural Engineer
Manhattan, NY

Xiyu Liao

Principal Reaction Engineer
Houston, TX

Julia Jakubisiak

Principal Reaction Engineer
Long Island, NY

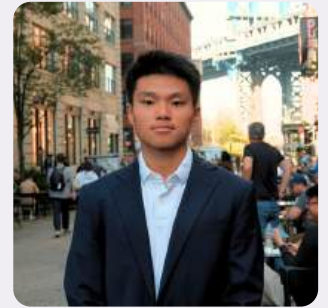

Vivian Zou

Construction Manager
Queens, NY

Cindy Hightower

Principal Graphic Designer
Queens, NY

Tony Chen

Paddling Captain
Philadelphia, PA

(Y)our Impact

By investing in the future of engineering, you join us in...

1. Advancing sustainability innovations in the construction industry,
2. Developing the skills, experiences, and professional networks of the next generation of engineers and leaders
3. Excelling in the premier student competition in the Civil Engineering profession

To this end, any funds raised will be used to buy materials and equipment for R&D; host technical, social, and professional events for members and the local community; and finance our team's participation at the Regional and National levels of the competition.

Brand Identity & Outreach

Each competition we attend is a multi-day event open to the public with hundreds of students and even more spectators from around the nation - presenting a unique opportunity for our sponsors.

Beyond our competitions, our other external events are equally popular and well-received. We host and attend various university, community, and professional events to showcase our canoe as part of our outreach program.

This year, we will feature our generous sponsors in our newly launched monthly newsletter, which is sent to our alumni network, student-supporters, and industry partners. Your logo will be displayed at national events (e.g. American Concrete Institute Conference), campus-wide events (e.g. NYU Research Excellence Exhibition), and local events (e.g. Giving Day).

Sponsor Benefits

We are a 501(c)(3) organization. All donations are tax-deductible.

NYU Concrete Canoe welcomes any type of sponsorship including cash, expertise, and in-kind donations.

OUR COMMITMENT TO YOU		Bronze <\$1,000	Silver \$1,000+	Gold \$2,000+	Platinum \$5000+	Violet \$10,000+
	Social Media Feature	x	x	x	x	x

	On-Campus Event (per academic year)				1x	2x

** Per Academic Year

ADDITIONAL OPTIONS

Optional add-ons to include in your package choice.

- ☐ Additional On-Campus Event \$1000
- ☐ Additional Social Media Features \$100
- ☐ Page Ad in Monthly Team Newsletter \$200

THANK YOU

TO OUR CURRENT SPONSORS

NYU Concrete Canoe is thriving thanks to the generous support of our sponsors, who continue to empower us to push the limits of traditional education and innovate consistently. We eagerly anticipate connecting with you soon as we look forward to establishing an exceptional partnership with you and your company.
